RA PORTAL | SECURE ENROLMENT MADE EASY

It is no secret that customer loyalty is an important element of building a profitable business. Building customer loyalty starts from the very first interaction with the customer.

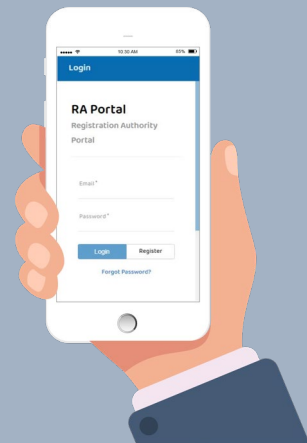

A good customer onboarding process will not only set the tone for your ongoing relationship with the customer but it could help the customer realise that they have made the right choice. Provide the customer with a good onboarding experience and turn them into devotees.

READY TO ENROL?

The LAWtrust RA PORTAL is an easy-to-use self-enrolment application with an intuitive user interface that guides users through the enrolment process.

The portal uses state of the art information security techniques, like liveness detection and facial recognition, to validate the identity of the user.

Public-key cryptography and encryption protects the user information and ensures that the solution is compliant with the European GDPR privacy standard.

THE ENROLMENT PROCESS

To start the enrollment process, a user can simply open the portal in their favourite browser and get started!
